

LUIS ANTONIO CANALES GUERRERO

IT Professional / Computer Science Technician

Contact

- **Location:** Gustavo A. Madero, Mexico City, Mexico
- **Email:** luisantoniocg0000@outlook.com
- **Phone:** +52 55 0000 0000

Professional Profile (ATS-Friendly Summary)

Student and professional in training with a focus on Cybersecurity, Networking, and Automation. Experienced in applying Python and Artificial Intelligence to strengthen security posture. I hold certifications from industry leaders (Cisco, Microsoft, Google, Government of Mexico) that validate my technical knowledge. I seek to apply robust technical solutions focused on measurable results.

Education

- **B.S. in Information and Communication Technologies Engineering (ITICS)** ITLA (Instituto Tecnológico de Tlalnepantla). August 2025 - Present (In progress).
- **Technical Degree in Computer Science** CONALEP Tlalnepantla. August 2022 - August 2025.

Projects and Experience

- **Secure LAN Implementation:** Design and configuration of a local network with VLAN segmentation, access control, and security policies. Technologies: Cisco Packet Tracer, VLANs, ACLs, DHCP, DNS.

- **Vulnerability Scanning and Analysis:** Security assessment in simulated environments using analysis and penetration testing tools. Tools: Nmap, Wireshark, Metasploit, Nessus.
- **Key Skills:** Implementation of virtual infrastructure in Azure (VMs, virtual networks, identity, and compliance) and knowledge in generative AI applied to system protection.

Certifications

- **Government of Mexico (CONOCER):** Intermediate Python.
- **Microsoft Learn (Azure):** AZ-900 (Azure Fundamentals), AZ-104 (Azure Administrator Associate).
- **Cisco:** Cisco Certified Network Associate (CCNA) Full, Python Essentials 1, Introduction to Cybersecurity.
- **Google & Coursera:** Cybersecurity Fundamentals (Google), Introduction to Generative AI (Google), Introduction to AI for Cybersecurity (Coursera/Johns Hopkins University).
- **LinkedIn:** Cybersecurity Awareness.
- **Others:** MAPS Disruptivo, ISC2.

Languages and Technical Skills

- **Programming:** Python (Intermediate Level, OOP), Bash.
- **Networking:** TCP/IP, VLANs, DHCP, DNS, ACLs, Routing L2/L3.
- **Systems:** Linux, Windows Server.
- **Languages:** Spanish (Native), English (Intermediate - B1).
